Branch Information Register

Keep one approved record for each location. Use it to compare public details before choosing a correction.

Branch ID and approved public name

Full address and postal code

Approved business phone and email

Operating hours or appointment contact arrangements

Official website and location-page URL

Fact confirmed by and confirmation date

Keep contact and operating information in separate rows where needed. Do not enter patient information.

Public source and update record

Complete one copy for each source or change. Keep unresolved differences visible.

Branch ID and field checked

Listing or public source URL

Approved value and value currently shown publicly

Last public check date and responsible update owner

Required correction and current status

Next review date

For a moved or closed location, record the historical context. A submitted correction remains pending until the public display has been checked.
