FREE WEBSITE PLANNING TOOL

# Clinic Website Checklist

Review the information and enquiry experience your website presents. Record what you checked, who owns the information and what needs attention.

## Make the review useful.

Use the next two pages to check twelve important details. Mark each item as current, needing attention or not checked. An untested item is not a confirmed failure.

Organization: _____ Review date: _____

Review owner: _____

Start with details that affect understanding and contact. Confirm disputed facts with the responsible person before making changes.
